RE: Western Clay Company Proposal, T21S, R1W, Sections 30, 31 File E/041/029 — moved to
S/041/033

In Reply Please Refer to Case No. 02-0013

Dear Ms. Burns:

The Utah State Historic Preservation Office has reviewed our cultural resource files for the above requested project area. No known historic properties have been recorded within the project area because no historic properties' surveys have been conducted. There is a potential for location of cultural resources in the project area, but little is known about cultural resource potential in this area.

This information is provided on request to assist in identifying historic properties, as specified in §36CFR800 for Section 106 consultation procedures. If you have questions, please contact me at (801) 533-3555. My email address is: jdykman@history.state.ut.us

As ever,

James L. Dykmann
Compliance Archaeologist

Subject: New Notice - E/041/029 — moved to SMO 5/41/033

We received a new notice from Western Clay Company for a proposed project to be located on private ground in:

SW1/4 SE1/4 NW1/4 Section 31
NE 1/4 Section 31
SW1/4 SE1/4 Section 30
Township 21 South, Range 1 West, Sevier County, Utah

Could you please inform us if you have any archaeological concerns for these locations.

We will forward to you (via buliding mail) a copy of the map which was provided to us for this project.

Thank you for your prompt attention to this request. According to our upcoming MOA, we need your response within 10 days. Our file number for this proposed project is E/041/029. Please refer to this number in your respnse.

Thank you.

I have read your January 11, 2002 letter regarding this project. Perhaps you can clarify what it is we need to do.

As per the draft MOU between our agencies, after DOGM provides you with the location of proposed operations, you would advise us as to whether a cultural resources survey need to be completed prior to our approving an application.

This reponse is vague as to whether a cultural resources survey is needed.

Since the original request for consultation was made, I have visited this site. most of the area has already been impacted by past (historic) mining activities. This may have some bearing as to whether a survey should be required. please advise us by February 1, 2002

Thank you.
